

Band Camp: Water Station

30 minute commitment for 2 parent volunteers to work with Equipment Managers (band leadership) to set up prior to beginning of practice

- 1) Set up tent on sidewalk of Student Parking Lot, near entrance to Auditorium
 - a) Stored in left back corner as enter Band Storage room
- 2) Fill beverage coolers with ice and water
 - a) Ice machines in north end room of small building at east end of football field (Revett and Booster President have keys)
 - i) Ice scoops on top of ice machines
 - b) Potable water source – hose at side of structure with ice machine (please run water through hose for a minute to clear any stale water in the hose prior to filling ice filled beverage cooler)
- 3) Wash cloths into rolling cooler with potable water and ice to cool down overheated students
 - a) Basket for used wash cloths
- 4) Spray bottles: fill with bottled water to cool down students—avoid spraying in eyes; place spray bottles in wash cloth cooler to cool down
- 5) Washing of used washcloths: **1 parent volunteer** to take home dirty washcloths to launder, dry, and bring back prior to beginning of next practice (no need to fold)
